Good Day,

Hi, I am Carlos, and I am writing to submit my resume for the position of Junior Web Developer. Currently a graduating student with Bachelor degree of Information Technology (already finished academic requirements). I am not limiting my self inside the box, I enroll on a course of Web Development to broaden my knowledge and enhance my skills. During these days, I've use to work on the task and challenges of the course. Building up my foundation for Web Development. Also work as part time freelancer.

The following are some of my key skills and achievements:

- Helped to develop the OLMS Website for Oblates School (Capstone Project).
- Contributed to modifying an existing Online Registration Website project during my OJT, offering my assistance and skills. (OJT Project).
- Developed a simple websites(practice projects) with the use of Bootstrap, CodeIgniter and Laravel.
- As a freelance Junior CodeIgniter Developer on Upwork, I focus on humble tasks like updating websites and creating new functionalities to meet client needs.

My relentless dedication drives my pursuit of excellence. I firmly believe in wholeheartedly embracing challenges and taking decisive steps toward success. Confident that my passion aligns with your organization's values, I welcome the opportunity for an interview. Thank you in advance for considering my application—I look forward to the possibility of joining your dynamic team.

Sincerely,

Carlos Romulo P. Maralit III
